

NINE YARD DESIGN

— BRANDING AND INTERIOR DESIGN —

Residential Design

THE WHOLE NINE YARDS

ABOUT US

We are a team of passionate designers who specialise in interior and graphic design. Our interior projects range from small residential renovations to larger boutique hotels and restaurants. Our team also does branding, corporate image development, invitations, menus, banners, websites and the whole 9 YARDS...get it?

We strive to create emotionally durable design with the focus on South African culture, community and flavour. With a dash of humour and ample focus on aesthetics, we strive to create simple design innovations that inspire and uplift.

OUR
RESIDENTIAL
PROCESS

01 GET IN TOUCH

Get in touch with one of our team members so that we can set up a date and time to discuss how we can assist you with your project.

CHARISTA

 megan@nineyarddesign.com

02 LET US MEET

We would like to meet-up with you to discuss your desires and needs for your interior project. We will have a look at the interior space and take some pictures so that we can start analysing and planning.

Style

03 MOODBOARD

We will put together a moodboard to illustrate the look and feel we have in mind for your space.

It is important that we establish and agree on a style before we move on to a design.

04 SITE VISIT

Once a look and feel has been approved, we will do a site visit to measure-up the space in order to draw up a plan for the spatial layout design.

05 SPACE PLAN

A spatial plan indicates furniture placement as well as new structural changes such as; adding new walls or the breaking out of old walls and elements.

06 3D-DESIGN

The next step would be to design the space in three dimensions. Here we will consider what shape and form the interior elements will take on.

This will help you visualise what your interior would look like when it is complete. You will be able to see exactly what your space will look like. From your kitchen to your bathroom or fireplace and cupboard design, a 3D image will bring the design to life.

visualise your space

07 TECHNICAL DRAWINGS

If required, we will compile a set of technical drawings for any new structural elements, carpentry or fittings for costing and construction purposes. This is needed to communicate to your builder or contractor exactly what they need to construct. This indicates dimensions, material choices and fixing details in order to achieve the exact design.

08 SOURCING

Here you have some options. We can either source and implement the furniture and decor items for you, or alternatively we can provide you with a furniture document and you can purchase the items yourself when you are ready to do so.

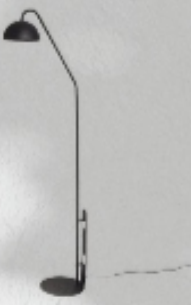

SOFA OPTIONS

 <p>Weyland's Fabio Daybed R39 090</p>	 <p>Weyland's Mercer daybed R22 595</p>	 <p>ElHome Huxley corner units R17 999</p>

09 IMPLEMENTATION

Here you also have options. You manage the construction or installation of the project yourself. This means you are responsible to organise and manage your own contractors and sub-contractors during the construction period.

We will be available for call outs at an hourly rate.

Alternatively, we contract manage for you. This means we take on the responsibility to organise and manage contractors and sub-contractors during the construction period.

No matter how small or large the project or the budget, we do have packages to help you with your project needs.

Whether you just want us to help you with a moodboard, spatial layout and sample board or wether you want us to help you with the whole nine yards.
